

UIC National Managers Call Minutes
Region 5 Host
June 21, 2017
12:00pm – 1:30pm EDT

Welcome & Roll Call (Lisa Perenchio)

- OECA, OGWDW & all Regions were represented
1. Webinar about 7520s - Automated data displays and analysis (Kyle Carey and Colin Dyroff)
 - Colin demonstrated features of the Internal EPA Qlik site which is under development for the sharing of data from the 7520 forms submitted by the UIC programs. An email went out to the managers and call list with attachments and links requesting regional feedback by July 7th.
 - Kyle demonstrated the draft EPA webpage that would be used to provide 7520 information to the public regarding permits issued, inspections and UIC inventory numbers. A link to the webpage was provided and any comments should be directed to Kyle.
 2. HQ Update (Holly Green)
 - HQ received for Agency review the withdrawal of the BLM rules for fracking. The HF group is working on a response.
 - Reminder: If there is any high profile UIC related news that your RA's are being briefed on, please let Holly know so she can inform Peter.
 - Keara's last day with us before starting her new position will be July 7th. Thanks and best of luck to Keara!
 3. Guidance Workgroup (Lisa McWhirter)
 - Lisa provided the results of the UIC Guidance Workgroup's summary report and recommendations. This included suggested documents to be updated. The topic is expected to be discussed at the national UIC Managers' meeting.
 4. Nitrosamine evaluations and detections at Aquifer Storage and Recovery sites in Colorado. (Linda Bowling)
 - Linda provided background on the R8 issue regarding the non-regulated but endangering contaminants discovered in the evaluation of ASR projects. The folks on the call did not have comparable experiences to offer advice at this time.
 5. Inspector training update (Jim/Brian).
 - The training was a success and received mostly good feedback from participants.
 - R3 hosted the training and thanked HQ for providing travel resources for the trainers.
 6. UIC Managers' Annual Meeting (David Albright)
 - David reminded managers that the San Francisco meeting dates are August 29, 30 & 31. He suggested that participants book their hotel rooms early. It was agreed that the meeting start first thing in the morning on the 29th (Tuesday).

7. Regional Round Robin

- R6 – Enforcement
- R8 – Douglas discussed the status of the proposed Dewey-Burdock uranium ISR project Class III & V permits and aquifer exemption. The comment period closed, with comments received from tribes, states, various groups, the company, and individuals. At last count the number of comments was > 8000. HQ will provide assistance in the response to comments. Consultation with the tribes will continue.
- R9 – David mentioned that the Florence Copper ISL project Class III permit was issued in December and appealed by 3 parties to the EAB. The EAB granted 3 petitions for oral arguments at a July 27th hearing.
- There were no updates from Regions 1, 2, 3, 4, 5, 7, 10, HQ or OECA.
